Company Statement for the use of GMO in the Organic Industry

KiALLA Pure Foods Pty Ltd supplies organic grains and flours to both domestic and international clients. All KiALLA Pure Foods Pty Ltd organic products are certified organic in accordance with the Australian Certified Organic Standards and certified in accordance with the National Standard for Organic and Biodynamic Produce v3.7. Our certification body is ACO Certification Ltd.

Under Australian Certified Organic Standards 2019, Item 4.2.12 **GMO** products and GE processes are prohibited in all aspects of organic production systems and products. This includes prohibition of GE seeds and propagative material. Further to this, the only three GM crops commercially available in Australia at present are cotton, canola and safflower, and KiALLA Pure Foods does not purchase any of them.

Yours sincerely
